Healthy Outreach

PMG Bridgeport

Introduction

Patients have limited time to come into clinic for services. This is a complaint that we hear regularly, especially from our patients with chronic conditions that require frequent monitoring. When patients can't come in for monitoring or education, it can cause detrimental outcomes to their overall health and wellness.

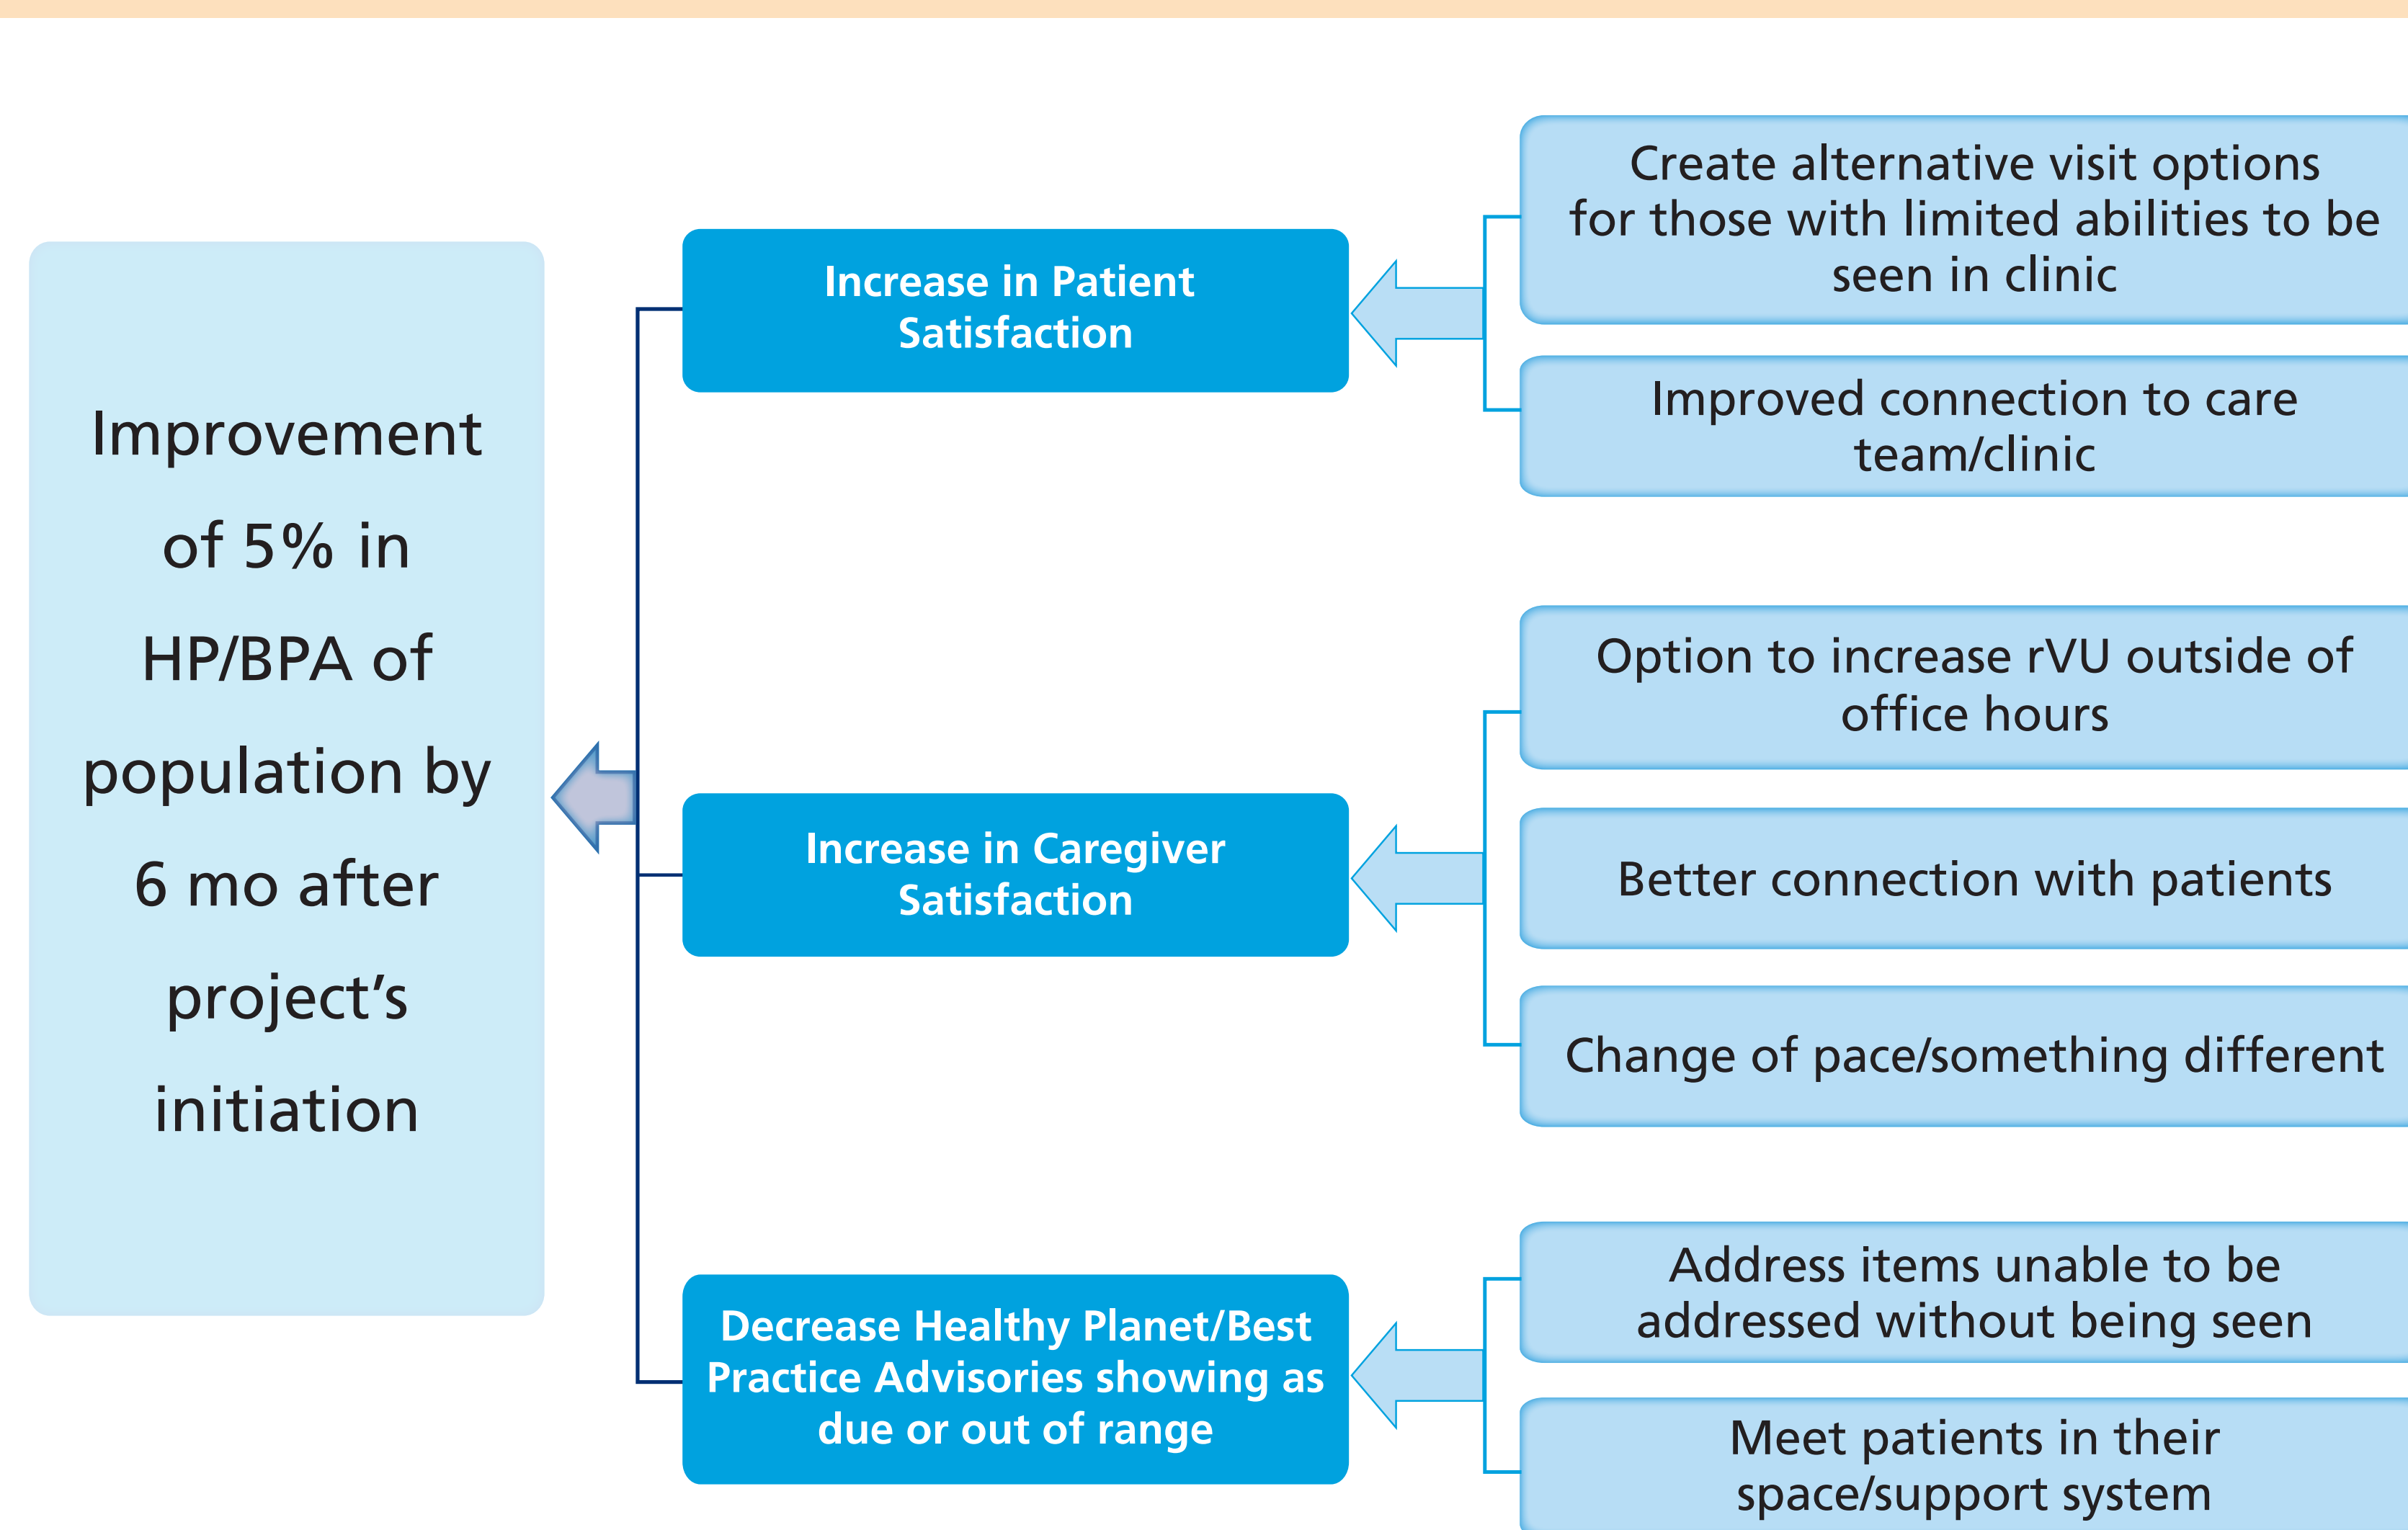

Method for Identifying patients:

SlicerDicer in Epic for:

- No office visit in past year
- High number of BPA items due

Team Referral as beneficial for patient

A Team's Focus on Innovative Quality

Care Gaps that could be closed at Home Visit:

- Blood Pressure
- Depression Screening
- SBIRT
- Vaccines
- Microalbumin
- Hga1C
- Hepatitis C Screening
- Diabetic Foot Exam
- Advance Directive
- HCC Coding
- Colon Cancer Screen (FIT Kit)

Conclusions:

Offering home visits gives another option of care to our patients and providers, allowing us to close gaps in those previously unable or unwilling to come in.

Acknowledgments:

Larry Acheson, Manager | Drew Bodmer, PA-C | Laura Herrera, RN-BC | Hannah Johansen, PRR
